### Subject Index, Volume 12, 1995

<b>Adipose Tissue</b>	
Effect of bST on ligand binding in	325
Effect of somatotropin on metabolism of	105
<b>Adrenocorticotropin</b>	
Basal pituitary-adrenocortical activity and concentration of	13
CRH and VP stimulate secretion of	283
Levels of, in sometribove-treated cows	301
Pituitary pars intermedia adenoma and concentrations of	35
<b>Avian</b>	
BASP inhibits steroidogenic enzyme activity	51
cGNRH I and II measured by radioimmunoassay	1
Effects of changing photoperiods on LH concentrations	257
Influence of photoperiodic control on sexual maturation	189
<b>Bovine</b>	
bST enhances milk production	105
Calcium and LHRH release from infundibulum	349
Circadian and ultradian rhythms of peripheral GH concentrations during lactation	247
Effect of bST and fasting on ligand binding in adipose tissue	325
Effect of cell interactions on luteal function	25
Effects of rbST on ovarian and uterine function	73
Follicular development and reproductive endocrinology	117
Pituitary response of lactating cows treated with sometribove	301
Role of IFG-II/M6P on fetal growth	317
<b>Calcium</b>	
Effects of PTHrP and Ca homeostasis during lactation	215
LHRH release from infundibulum and involvement of	349
<b>Canine</b>	
Hepatic encephalopathy and osmoregulation of VP	13
<b>Corporea lutea</b>	
Collected from Holstein cows during estrous cycle	25
Effect of rbST on weight of	73
Individual activity of <i>in vivo</i> , during PGF <sub>2α</sub> -induced luteolysis	41
Treatment with sometribove and activity of	301
<b>Cortisol</b>	
Influence of chronic stress on	167
<b>Deer</b>	
Regulation of ACTH secretion by corticotrophs	283
<b>Estrone</b>	
Intrauterine position and release of	179
Uterine space and fetal sex determine release of	63
<b>Equine</b>	
Diagnosis of pituitary pars intermedia adenoma	35
Oxytocin in preovulatory follicle	133
<b>Fasting</b>	
Effect of ligand binding in adipose tissue of lactating cows	325
<b>Feline</b>	
Urinary excretion of glucocorticoids and hyperadrenocorticism in	355

Follicle-stimulating hormone	117
Plasma concentrations of, related to ovarian follicular development	
Glucocorticoids	13
Chronic excess of and vasopressin release	13
Circadian fluctuations in circulating levels of	167
Hyperadrenocorticism and urinary excretion of	355
Gonadotropin releasing hormone	1
Effects of cGnRH I and II during reproductive cycle	1
Pituitary response to, in lactating cows treated with sometribove	301
Growth factor	269
EGF receptors in fetal skin before and during wool follicle development	
Growth hormone	337
Binding of, in fetal and postnatal liver	247
Circadian and ultradian rhythms of, in lactating cows	207
Concentrations of, in serum treated with NMA	325
Effect of bST on ligand binding in adipose tissue of lactating cows	293
Effect of diet on secretion of	105
Effects of, on adipose tissue metabolism	143
Glycemic response to insulin	301
Pituitary response to chronic treatment of	83
pST and fetal and postnatal growth	73
rbST and ovarian and uterine function	
Hyperadrenocorticism	355
Urinary excretion of glucocorticoids and diagnosis of	
Insulin	143
bST and effect on glycemic response to	157
Effect of low thyroid function on glycemic response to	223
Effect of, on cultured ovarian cells	
Insulin-like growth factor	223
Effect of, on cultured ovarian cells	143
Plasma concentrations of, in preruminant and ruminant lambs	73
rbST and production of components of	317
Role of IGF-II in fetal growth and development	
Lactation	247
Circadian and ultradian rhythms and effect on	301
Cows treated with sometribove during	325
Effect of bST and fasting on ligand binding during	215
Effects of PTHrP and regulation of Ca homeostasis during	105
Enhanced by bST	73
rbST and effect on	
Luteinizing hormone	349
Calcium and LHRH release from infundibulum	51
cAMP and progesterone production stimulated by	207
Concentrations of, in serum treated with NMA	25
Effects of, on bovine luteal cell function	117
Ovarian follicular development and plasma concentrations of	257
Response to changing photoperiods	189
Sexual maturity assessed by increase in plasma concentrations of	
Mannose-6-phosphate	317
IGF-II/M6P receptor and role in fetal growth and development	
Microdialysis	363
As sampling technique for intracerebral measurement of somatostatin	
Ovine	143
Effects of bST on glycemic response	269
EGF receptors in developing fetus	

Intracerebral measurement of somatostatin in extracellular fluid	363
oPL binding in fetal and postnatal liver	337
PTHRP and Ca concentrations in milk and plasma	215
PTU-induced low thyroid function on insulin	157
<b>Oxytocin</b>	
Role of, in equine preovulatory follicle	133
<b>Parathyroid hormone</b>	
Effects of PTHrP and Ca homeostasis during lactation	215
<b>Placental lactogen</b>	
Action of, in fetal and postnatal liver	337
<b>Porcine</b>	
Circadian differences in the effect of chronic stress on plasma cortisol levels	167
Effect of feed intake pattern on GH secretion	293
Effect of intrauterine position on fetal growth and steroidogenic activity	179
Effect of pST on fetal and postnatal growth	83
Effects of NMA on concentrations of LH and GH	207
Hyperthermic and endocrine effects of intravenous prostaglandin	197
PGF <sub>2α</sub> and effect on luteal cells	41
PI hydrolysis and in vitro secretion of PGF <sub>2α</sub>	95
Uterine space and fetal sex and effect on fetal growth and release of hormones	63
<b>Progesterone</b>	
Effect of intrauterine position on endometrial release of	179
Effect of uterine space and fetal sex on release of in vitro	63
Ovarian follicular development and plasma concentrations of	117
Oxytocin and effect on secretion of	133
<b>Prolactin</b>	
Binding of, in fetal and postnatal liver	337
<b>Prostaglandin</b>	
Effect on corpus luteum regression	95
Hyperthermic and endocrine responses mediated by	197
Regression of luteal cells in response to PGF <sub>2α</sub>	41
<b>Somatostatin</b>	
Intracerebral measurement of, in extracellular fluid	363
<b>Sometribove</b>	
Pituitary response in lactating cows treated with	301
<b>Testosterone</b>	
Sexual maturity assessed by increase in plasma concentrations of	189
<b>Thyrotropin</b>	
Pituitary response to, in lactating cows treated with sometribove	301
<b>Thyrotropin-releasing hormone</b>	
Thyroid hormone responses to injection of	157
<b>Uterus</b>	
Effect of space in, on litter size in swine	63
Fetal development related to position in	179
rbST and function of	73
<b>Vasopressin</b>	
Actions of, in secretions of ACTH	283
Hyperadrenocorticism and impaired osmoregulation of release of	13
